

Programme 3 - Design an HTML web page using anchor () tags and an iframe to display linked content within the same page. The iframe should load a web page containing an image using the tag.

CODE:

program3.html

```
<!DOCTYPE html>
<html>
<head>
  <title>Restaurant Gallery</title>
</head>
<body>

<h1 align="center">Online Restaurant Table Booking</h1>

<h2>View Restaurant Ambience</h2>

<!-- Anchor Tag -->
<a href="image.html" target="frame1">
  Click Here to View Restaurant Image
</a>

<br><br>

<!-- Iframe -->
<iframe name="frame1" width="600" height="400"
  style="border:2px solid black;">
</iframe>

</body>
</html>
```

OUTPUT:

 Restaurant Image

image.html

```
<!DOCTYPE html>
<html>
<head>
  <title>Restaurant Image</title>
</head>
<body>

<h2 align="center">Our Restaurant Interior</h2>

</body>
</html>
```

OUTPUT:

Online Restaurant Table Booking

View Restaurant Ambience
